

## **The Ringerz Advantage**

At TheRingerz.com we offer more advantages than other handicapping sites:

The main advantage we offer is that each individual handicapper will **never** go against each other; you see, on other sites, not only do you need to have faith in selecting the best site; you need to also select the correct handicapper. I believe your odds decrease in this process as well as those sites making a profit no matter who wins.

Another big advantage we offer is the cost of our selections; at other sites they charge much higher fees whether they are right or wrong, here at TheRingerz.com we understand that in order for you to make money you should not be giving a high percentage to your handicapper, therefore, our fees are at a much more reasonable price although our win percentages are just as high or higher than most!
